

Strand Core, a leading manufacturer of DOMESTIC wire rope products, would like to introduce our line of “Architectural Wire Rope products.” These products are high quality engineered wire ropes that are manufactured on equipment designed specifically for these products. Our state of the art high pressure cleaning system insures a high quality bright finish and luster. These ropes are DOMESTICALLY produced in the U.S.A and meet Buy America and Buy American compliance when specified.

Strand Core is a manufacturer of Commercial & Mil Spec Strand, Wire Rope, Cable and Wire Rope Assemblies. We have the capability to manufacture Strand from .009" and Wire Rope / Cable up to 5/8" diameter in many material forms including but not limited to : Stainless, Galvanized, Bright Basic, Carbon, Copper, Inconel and Phos Bronze . We can produce a variety of cable assemblies per your design and specifications.

With its focus on quality and over 40 years of excellence, **Strand Core** produces products for OEM’s and End Users in multiple industries. Please check out our website to “**Download our Catalog**” lin the **PRODUCTS** section:
