

GEN⁴ PACKAGING OPTIONS

CWI Generation4™ welding consumables are available in a variety of packages to meet your application needs. From tubes, boxes, cartons and drums to reels, spools, stems, and full pallets, we can supply them all. Below is a list of our standard packaging options by item and welding type, including weights per item and per pallet. If you do not see the package you need, please contact our material and application experts for more information and we'll be happy to find a solution for you.
